Targeted treatment for neck and décolletage

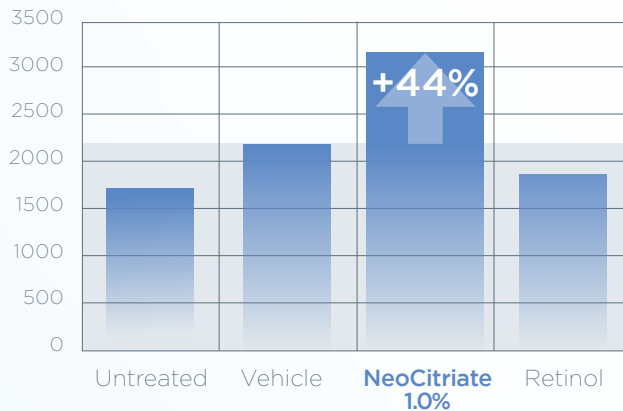

NeoStrata
Elite Science. Professional Results.

Introducing a targeted treatment to help reduce visible ageing in the challenging neck and décolleté area

Formulated with 3 powerful matrix building ingredients:

1. NeoCitriate increases collagen by 44%¹

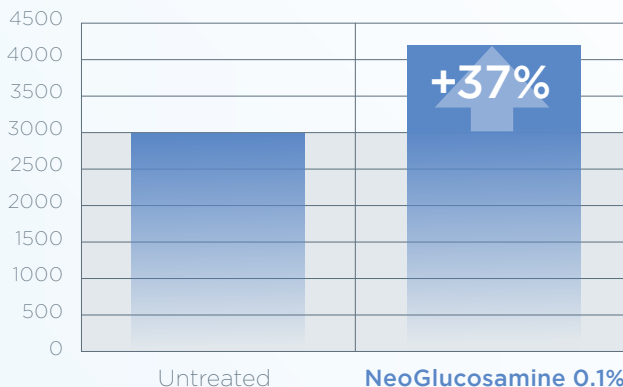

Effect on Type 1 Collagen Synthesis
in Human Fibroblast Cell Culture Media

- Collagen increases skin firmness
- Helps build deep skin matrix to lift and firm skin

2. NeoGlucosamine increases hyaluronic acid production by 37%¹

in Human Fibroblast Cell Culture Media

- Hyaluronic acid plumps and reinforces collagen's natural support
- Patented NeoGlucosamine inhibits tyrosinase to help reduce the appearance of age spots and uneven pigment

new

Powerful. Potent. Professional.

¹Data on file, NeoStrata Company, Inc.

3. Pro-Amino Acid boosts pro-collagen and enhances collagen architecture²

Collagen Architecture	Effect (in vitro)
Collagen Synthesis Pro-Collagen 1	↑
Collagenase Enzyme MMP 1	↓
Natural MMP Inhibitor TIMP-2	↑

Clinical trial demonstrated improvement in sagging skin, lines, wrinkles and mottled pigmentation (twice daily use)

Subject 1 - Front View

Baseline

Week 8
